Renehan Building Group Donates Time and Materials to Rebuild Great Valley High School Baseball Dugouts

MALVERN, Pa., September 15, 2015 – Renehan Building Group, which specializes in custom home building, additions and remodeling, is helping Great Valley High School’s varsity baseball team prepare for next season by renovating the home and away dugouts at the school’s baseball field. The company is donating its employees’ time and the materials required to renovate both dugouts, working in cooperation with Peter Batchelor & Associates Architects of Paoli, Pa.

“Great Valley High School has one of the strongest athletic programs in the area, and we’re pleased Renehan was given the opportunity to improve their athletic facilities,” said Jim Renehan, CEO of Renehan Building Group. “Our work at Great Valley High School is a reflection of Renehan’s culture of community service. We give back to dozens of local organizations through financial contributions, supporting local events and volunteering our professional expertise.”

“The Great Valley Baseball Program and entire Athletic Department are extremely grateful to Renehan for their generosity and efforts in rebuilding our dugouts,” said Russell R. Wren, Athletic Director. “They are a company that really “gets it,” and it shows by what they are doing for kids and communities. Thanks to Jim we will be able to display our GV Patriot pride all spring and summer during the high school and American legion baseball seasons!”

The following companies also donated time and materials to the effort: Spruce Lane Construction; Spring Valley Contracting; Sam Esh Masonry; Watson Fencing; and Willistown Contractors.

About Renehan Building Group

Renehan is one of the Philadelphia region’s most respected builders of distinctive, custom homes. The company is the winner of multiple Synergy and Pyramid awards from the Home Builders Associations of Chester, Delaware, Bucks and Montgomery counties including Custom Home of the Year, Best Single Home of the Year and Best Residential Renovation.
